General Terms

This warranty against defect applies to product imported and sold by Toshiba (Australia) Pty Limited – Building C, 12-24 Talavera Road, North Ryde, NSW 2113 ("Toshiba" or "Manufacturer") through its Authorised Resellers, Retailers and Distributors ("Supplier"), and applies only to product that is new, or refurbished and certified by Toshiba, on the date of purchase, and for which you have an invoice showing proof of purchase.

Any service outside the scope of this Warranty shall be at Toshiba's, its Authorised Service Provider's ("ASP") or the Supplier's rates and terms then in effect. Toshiba recommends that you confirm these rates and terms prior to signing any service or repair agreement on your product.

Toshiba reserves the right to modify the terms and conditions of this Warranty, including fees at any time.

Consumer Guarantees (Australia only)

Consumer Guarantees apply to goods bought on or after 1 January 2011 by a consumer from a Supplier, in the course of a normal trade (not by way of auction where the auctioneer acts as agent of the owner(s)), and where the goods are normally used for personal, domestic or household purposes.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

This Warranty is not intended to and do not limit your rights with respect to the Consumer Guarantees (in Australia) or Consumer Guarantees Act (in New Zealand).

This Warranty does not provide for remedy of failure caused by improper installation, operation, cleaning or maintenance, accidental and physical damage, misuse, abuse, non-Toshiba modifications to the goods, software faults, normal wear and tear or any other event, act, default or omission outside Toshiba's control.

The product you have purchased is not designed for any "critical applications."

"Critical applications" means life support systems, medical applications, connections to implanted medical devices, commercial transportation, nuclear facilities or systems or any other applications where product failure could lead to injury to persons or loss of life or catastrophic property damage.

What is covered under the Warranty

1. If the product fails during normal and proper use within its Warranty period Toshiba will repair or exchange the faulty parts within the product, or the product itself. **Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the product.** Ownership of items is surrendered to each party on exchange. Repair or exchange is subject to the original item being genuine and unaltered.
2. Toshiba will take reasonable steps to provide service parts availability where it is commercially prudent to do so.
3. Unless otherwise advised in writing, Toshiba will choose to repair or exchange the faulty parts. Repaired or exchanged items are warranted for the longer of the balance of the original product Warranty or 90 days from the date of service completion.
4. If the Hard Disk Drive is replaced, Toshiba will reinstall the original configured operating system as shipped with the goods when it was sold, provided you supply the original Product Recovery Disc(s) ("RCD") and/or the Software Product Key. If you do not have the RCD, media can be requested and purchased by contacting the Toshiba Support Centre or the ASP, provided that you can produce the Software Product Key.
Repair to the goods may result in loss of the data. It includes, for example, songs, photos, telephone numbers and electronic documents. Toshiba recommends that you back up and secure your data prior sending the goods for repair or service.
5. This Warranty is personal to the person or organisation that acquires the product from a Supplier and may not be transferred to a subsequent owner.

7. Unless otherwise stated on Toshiba's website or instructed by the Toshiba Support Centre you are required to mail-in your product to a nominated Toshiba Service Centre at your expense. See 'How to obtain service' section for more details.
8. Product replacement or repair is subject to the service centre's ability to replicate the fault and parts availability. Intermittent faults must be replicated to confirm that the fault is related to the product and covered by this Warranty.
9. If you mail-in your product ensure that it is sufficiently padded and boxed for transport. Toshiba does not accept any responsibility for damaged product in transit due to inappropriate packaging.

10. Toshiba's sole obligations with respect to software distributed under the Toshiba brand name are set out in the applicable end-user licence agreement (EULA). Unless otherwise stated in writing, non-Toshiba labelled software is provided on an "as is" basis by Toshiba.
11. This Warranty is valid within Australia, New Zealand and PNG only.

Additional Care Recommendation

If you use this product in a mobile environment you should;

1. Read and follow all care instructions provided with your product.
2. Ensure that the product has completely shutdown (No activity on the Hard Disk Drive light), before moving the product. Any applied shock before complete shutdown may damage the Hard Disk Drive.
3. Purchase a carry bag or case, affording shock and impact protection suitable for your product (refer to Specification section of the User Manual for shock ratings). Avoid over packing your carry bag where pressure is applied to the product, as this may damage the product and/or its LCD.
4. Not leave any cable connected to the product when transporting it. This may damage the connector(s).
5. Not store the AC adaptor or AC power lead where impact with the LCD or LCD top cover can occur. You may damage the LCD (screen) if excessive shock is applied to this area.
6. Not wrap the cables around the AC Adaptor, either in use or when storing. This may damage the cables.
7. Discuss your usage patterns with Toshiba or an ASP to determine if a Preventative Maintenance program should be purchased to support your IT requirements. This is especially important where the product is used in a tropical environment, or if the goods is subject to multiple daily movements such as in Field Sales/Service or Education use.
