### General Terms

With the purchase of this **Three (3)-Year Extended Support Plan** ("Plan"), Toshiba expressly warrants the product nominated and registered by the purchaser, to be free from defects in workmanship and materials for a period of three years from the date of purchase, provided the product has been offered with 2 year voluntary limited warranty ("warranty") only, imported and sold by Toshiba (Australia) Pty Limited ("Toshiba" or "Manufacturer") through its Authorised Resellers, Retailers and Distributors ("Supplier"), and applies only to product that is new, or refurbished and certified by Toshiba, on the date of purchase, and for which you have an invoice showing proof of purchase. This offer will only be accepted for registration within the product's original warranty period.

Under this Plan, and during the Plan's period, for the products specified above, you are entitled to:

- 3 years Toshiba parts and labour warranty.
- Limited hardware phone support in Australia and New Zealand.
- On-site Service in covered Metropolitan areas of Australia and New Zealand.
- Courier pick-up and return on warranty repairs in readily accessible areas in Australia and New Zealand.
- Accidental Damage Service.

The Plan does not provide for remedy of failure caused by improper installation, operation, cleaning or maintenance, and certain physical damages, misuse, abuse, non-Toshiba modifications to the product, software faults, normal wear and tear or any other event, act, default or omission outside Toshiba's control.

The Plan excludes all accessories, and the battery which carry a 12 month warranty only from the date of the purchase of the product.

Any service outside the scope of this Plan shall be at Toshiba's, its Authorised Service Provider's ("ASP") or the Supplier's rates and terms then in effect. Toshiba recommends that you confirm these rates and terms prior to signing any service or repair agreement on your product.

The Plan is not available to SNAP education product used by students in a school environment.

### Consumer Guarantees (Australia only)

Consumer Guarantees apply to goods bought on or after 1 January 2011 by a consumer from a Supplier, in the course of a normal trade (not by way of auction where the auctioneer acts as agent of the owner(s)), and where the goods are normally used for personal, domestic or household purposes.

*Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.*

This Plan is in addition to, and does not limit your rights with respect to the Australian Consumer Law (in Australia) or Consumer Guarantees Act (in New Zealand).

The product you have purchased is not designed for any "critical applications."

"Critical applications" means life support systems, medical applications, connections to implanted medical devices, commercial transportation, nuclear facilities or systems or any other applications where product failure could lead to injury to persons or loss of life or catastrophic property damage.

## What Is covered under this Plan

1. If the product fails during normal and proper use within its warranty or the Plan period Toshiba will repair or exchange the faulty parts within the product, or the product itself. *Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the product.* Ownership of items is surrendered to each party on exchange. Repair or exchange is subject to the original item being genuine and unaltered.
2. Toshiba will take reasonable steps to provide service parts availability where it is commercially prudent to do so.
3. Unless otherwise advised in writing, Toshiba will choose to repair or exchange the faulty parts. Repaired or exchanged items are warranted for the longer of the balance of the original product warranty period or 90 days from the date of service completion.
4. If the Hard Disk Drive is replaced, Toshiba will reinstall the original configured operating system as shipped with the goods when it was sold, provided you supply the original Product Recovery Disc(s) ("RCD") and/or the Software Product Key.  
If you do not have the RCD, a media can be requested and purchased by contacting the Toshiba Support Centre or the ASP, provided that you can produce the Software Product Key.  
*Repair to the goods may result in loss of the data. It includes, for example, songs, photos, telephone numbers and electronic documents.* Toshiba recommends that you back up and secure your data prior sending the goods for repair or service.
5. This Plan is personal to the person or organisation that acquires the product from a Supplier and may not be transferred to a subsequent owner.
6. If on-site or courier pickup and return service applies to your product, you are required to contact Toshiba to arrange this service using Toshiba's authorised service personnel or designated freight carrier. Toshiba will not accept charges or liability for any service or freight arranged by you. For courier transport, please ensure that the product is sufficiently padded and boxed for transport. Toshiba does not accept any responsibility for damaged product in transport due to inappropriate packaging. This courier service is only applicable between your location and the nearest suitable service point and may not be available in some areas. Transport time varies depending on location.
7. On-site service is available in major Australian metropolitan areas, and New Zealand cities of Auckland, Wellington and Christchurch only and this will be confirmed when you call Toshiba. To enable on-site visit, you must provide safe and reasonable access to the product for service.
8. Repair is subject to the service centre's ability to replicate the fault and parts availability. Intermittent faults must be replicated to confirm that the fault is related to the goods and covered by this Plan.
9. Toshiba's sole obligations with respect to software distributed under the Toshiba brand name are set out in the applicable end-user licence agreement (EULA). Unless otherwise stated in writing, non-Toshiba labelled software is provided on an "as is" basis by Toshiba.
10. This Plan is valid within Australia, New Zealand.
11. If applicable to your product, the Accidental Damage Service ('ADS') offer by Toshiba that was made at the time of sale will have its end date extended to match the end date of this Plan, upon registration of this Plan. The terms and conditions of the ADS are in addition to this Plan. Please refer to Toshiba's website or the Limited Warranty Statement supplied with the product for more details.

## What is not covered by this Plan

This Plan shall not apply to damages, or in certain circumstances, including without limitation, those set out below (however these may be covered under the ADS program, please refer to Toshiba's website or the Limited Warranty Statement supplied with the product for more details):

1. Limitations in technology. There are technology limitations on some of the devices used in this product. These limitations are common or are defined standards within the IT Industry and are not specific to Toshiba product.
  - a. The TFT display may present up to 6 non-conforming pixels, (bright or dark spots) representing less than 0.0003% error rate.
  - b. The DVD-ROM or Blu-ray drive and software player may not play certain movie titles due to regionalisation or other security levels set by the title producer. The DVD-ROM standard allows five changes of region code on the player before the fifth change becomes fixed. Thereafter only Region coded DVDs that correspond to the fifth change may be played. These cases are a limitation of technology and do not represent a defect in the product. Refer to Toshiba's website, Technical Limitations page, for more information.
2. Assistance to install, configure or troubleshoot the product, any software application, or any third party device (however, this service may be available by contacting the Toshiba Support Centre or some ASPs at their prevailing rates).
3. Replacement of any batteries beyond 12 months from the original purchase date.
4. Rectification of software faults or updating the BIOS.
5. Damage, delay or any action by any party not authorised to perform warranty repair on the goods. Please refer to the Toshiba website for the list of ASPs or call the Toshiba Support Centre.
6. External connector damage or damage caused by improper installation or improper connection to any device (including but not limited to: AC Power, LAN or modem point, USB and storage devices and memory slots).
7. Damage caused by an external electrical fault, power surge, or use of incorrect data cabling.
8. Damage caused by accident, intentional or accidental misuse, abuse, neglect or improper maintenance, use under abnormal conditions, including fracture or damage to the LCD (screen), casework, cables, AC Adaptors, keyboard keys, covers, plugs and latches. This includes fluid ingress of any kind (including damage from condensation), damage from shock or restriction of airflow and damage from pest infestation or corrosion.
9. Damage from use outside usage or storage parameters set out in the user guide, supplied with each product, and available on the Toshiba's website.
10. Damage from use of parts or equipments not manufactured or sold by Toshiba.
11. Damage to or loss of any programs, data or removable storage media, or costs of recovering such programs or data.
12. Non-authorized disassembly of the Hard Disk drive ("HDD") will void its warranty. If you need the data to be extracted from the HDD and the HDD disassembly is required (such as in a major data recovery process), you would need to purchase the HDD from the ASP.
13. Consequential or other damages of any kind that may occur during repair or replacement.
14. Cost associated with the de-installation and re-installation of the product is not covered under this Plan.
15. Product purchased from anyone other than Toshiba or a Supplier, or product not imported by Toshiba.
16. Modifications to the product not approved in writing by Toshiba.
17. Service made necessary by use of incompatible third party product.
18. Service of product on which the TOSHIBA label or logo, rating label or serial number have been defaced or removed.
19. FORCE MAJEURE. Toshiba will not be responsible for any failure to perform due to causes beyond its control, including, without limitation, fires, floods, earthquakes, explosions, accidents, acts of public enemy, wars, rebellions, insurrections, sabotage, epidemics, quarantine restrictions, labour disputes, labour shortages, transportation embargoes or failures or delays in transportation, inability to secure raw materials or machinery for the manufacture of their products and delivery of their services, acts of God, acts of any government or any agency thereof (including denials or onerous restrictions on required export licenses), and judicial actions.

## Additional care recommendation

If you use this product in a mobile environment you should;

1. Read and follow all care instructions provided with your product.
2. Ensure that the product has completely shutdown (No activity on the HDD light), before moving the product. Any applied shock before complete shutdown may damage the HDD.
3. Purchase a carry bag or case, affording shock and impact protection suitable for your product (refer to Specification section of the User Manual for shock ratings). Avoid over packing your carry bag where pressure is

- applied to the product, as this may damage the product and/or its LCD.
4. Not leave any cable connected to the product when transporting it. This may damage the connector(s).
  5. Not store the AC adaptor or AC power lead where impact with the LCD or LCD top cover can occur. You may damage the LCD (screen) if excessive shock is applied to this area.
  6. Not wrap the cables around the AC Adaptor, either in use or when storing. This may damage the cables.
  7. Discuss your usage patterns with Toshiba or an ASP to determine if a Preventative Maintenance program should be purchased to support your IT requirements. This is especially important where the product is used in a tropical environment, or if the goods is subject to multiple daily movements such as in Field Sales/ Service use.
